Distinctions:

- 2014: Academic Excellent Award of the Year, University of Cambodia

A Cambodian engineer from Norton University, Lim was the first employee of BLOOM. Invested in most of the project from the office and proficient in technical questions he quickly became a cornerstone of the office due to his ability to diagnostic problems and find pragmatic solutions, working as team with the contractors and other consultants. Lim was in charge of each constructions under BLOOM architectural supervision since the start, his major built accomplishments include Atelier Kampot, The Factory Phnom Penh, the Mekong House, Happy Chandara Boarding School 1, a private house on street 240 and more recently the PSE South Field School, a 53 classroom school.
